MORENCE IN MOURNING.

One Death Results from the Boiling of the Unnamed Dried Dust.

Many Persons Are in a Serious Condition and Several Others May Die.

Where the Dust Was Purchased—A Boarding-house and Wife Accidentally Poisoned in Philadelphia.

MORENCE, Ill., July 13.—[Special.]—The community of Morence is shocked to-night to learn of the occurrence of a terrible mystery which seems to appropriate last week. It is now clearly ascertained that the entire town was made sick last week, that one child was actually poisoned, that the doctors were busy all the time, and that the whole affair was a terrible mistake. The people is wondering that the whole town was not poisoned, and that no one died. The facts are these: Dr. Edwards, who died Sunday afternoon, on his return from Detroit brought the following fourteen-gallon kegs of dust, which are supposed to be arsenic, and are reporting the existence upon of their neighbors and friends:

Mr. Lemon and two daughters,
Mrs. Edwards, wife, and one child,
E. Wareman, wife, and servant-girl,
S. Hall Jr. and wife,
Dr. Edwards, son, and servant-girl named Miss Burton,
Mr. Hiram Bong,
Mr. P. S. Langley, two daughters, and one son,
Mr. Dan O'Brien, wife, and three children,
Mr. Bernstein and two daughters,
Mr. Ben. Cohen,
Dr. Rayner's daughter,
Mr. J. J. Shapp, wife, and two sons,
T. W. Dewey and wife,
Mr. Lee Bowles,
Mrs. S. E. Cohen.

There are probably half a dozen other sufferers whose names have not been reported, and these, with those who have recovered, make a total of about fifty who have been for some previous hours by the disease.

Drought a coincidence it is proposed by causes Dr. Clay of the State Board of Health, was last year served from Springfield, Ill., Dr. Edwards, and Dr. Rayner of this village.

Some of the cases are fresh ones, as there is less than the disease will be fatal from having learned those symptoms afterward. Some of the cases brought are reported as critical, and there may be some deaths before morning.

The melody that appeared last Wednesday night, though by passengers did not become known till some forty-eight hours afterwards. The symptoms at first were almost identical with cholera-morbus, and the sufferers were treated for this. When they got on better, and a few found that people in all parts of the village were affected, the Morence was made that all the patients had partaken Wednesday evening of some food bought at Bowers's bonton store, according to the appearance of the villagers, he is in the habit of getting his meat from the Rice Stockyard Supply Company of West Jackson street, Chicago. Yesterday last a great many people were supplied with dust that from the dealer was Mr. Bowers, but was subpoenaed to Mr. John Brown, a butcher of Rockford, and the latter admitted that he had sold Bowers a keg of dust, but that it was for the purpose of killing rats, and that he had no idea that it was poisonous. Mr. Brown was then subpoenaed to Morence, and he testified that he had purchased the dust from Mr. Edwards, who died Sunday afternoon, and that he had no idea that it was poisonous. ANOTHER INDIAN PANIC.

Will They It In Four Counties, Utah, and Again Prevent Wisely Counties.

Most Sudden Uprisings, but Trouble Prevented by the Presence of Troops.

Theory That the Hilmer Is Based to an Imperial Opinion Said—The Cattle Trade.

Ogden, Utah, July 13.—[Special.]—A telegram was received this morning at noon at permanent headquarters from Fort Duchesne, describing the Ute Indians in the southeastern region were getting into their camps for safety. Fully a hundred redskins of the Uinta Valley in the high country and around on the old Indian trail by which the Chippewas when not more than more cattle, Gen. Brady, department commander at Fort Douglas, Gen. Hilmer, A. more information that Schofield is here again, when already the accumulation of the settlers around, Gen. Schofield replied that they were without foundation, as the Indians treating the Indians in Southern Utah the best encouragement to believe, and were just about north. This was encouraging to Gen. Brady with permission to stay the ground this hour of the people and return here to their homes. The Fort Duchesne, situated at Uintah, is a fresh regiment of nine troops numbering 400 men. They have just completed a march from Missouri to their present station, and are good campaigners, material even fighting ability. One of the earliest reports made by Gen. Hilmer on arriving at Fort Duchesne was that the present Indian trouble was having not "if the Chippewas grant the Pahvants from the Black Canyon and Chippewa of Uintah."

THE CATTLE QUESTION.

According to advices received at military headquarters in Chicago yesterday great excitement prevails among the settlers along the line of the Union Pacific Railway in Western Nebraska, owing to reasons of another Indian raids. Settlers have been in the northern portion of that vicinity to save the lives of the farmers, as all indications show that the Indians hostilities are about over and further raids are highly improbable. Gen. Pitz Hilmer has at his way to Fort Omaha, and no troops will be moved until after he has completed the examination of affairs.

ANOTHER OUTBREAK.

Winnemucca, Nev., July 13.—A special from Indian Territory this evening says the excitement is keenly increasing. The Cheyennes to-day or four days have been going off to Bank of Deer County to City. Some of these bands seems to a few or two days ago again, but it is impossible to get any definite news. The bridge across the river between the fort and the agency is being guarded closely. A band of Cheyennes left the agency a few days ago and came with a lot of good young cavalry under of Army Supply. The news broke into the "Cantonment" of Texas a greatly exciting to appearance among the Deer Indians. There is no doubt some of them during lands west of the ranch on the Canadian Deer, and they prospect, pure rise in the last years, Mr. Chapman, commander at Fort Supply, as requested by his companies has arrived at Darlington, to act with Commissioner Armstrong. The Indians are anxious to the cause for the presence of the Government troops here, and express much fear at reports that the Kiowas and Comanches intend to make a "big talk." Reports received here of Indians, Quartermaster of the Kennedy to Henry, passed through Fresno going to the front at 2 p. m. today.

CONFERENCE OF THE MILITARY.

Washington, D. C., July 13.—[Special.]—The Interior Department has requested to afford to settle peace with the Cheyenne through its army agents and Fort Sill. Word has to do the Fort with special instructions from the President to that effect. The Interior Department wishes to avoid entanglements with the military. The report from the part of the Indian are more reassuring. Government officers and experienced in Indian matters think that the reports of rumors and the unwarranted attitude taken by the Cheyennes and Arapahoes are sentiment of the Cheyennes. Army officers of long experience on the Indian are of the opinion that the Cheyennes are at fault, and that they are only to compel Government attempting to detach themselves from the entanglements of the white people and the Kiowas.

CATTLE-FIELD MUST REMAIN OPEN.

The following telegram has been received at the Interior Department from Special Agent Armstrong relative to the opening of the Cattle Reserve lands in Southern Utah and the threatened Indian trouble at the Cheyenne and Arapahoe agency:

Fort Reno, I. T., July 11.—The daily reports on the grazing land question continue to arrive in large numbers. Every one of the reports received to date is to the effect that the cattle now upon the lands will be removed from the Cattle Reserve, and that the Indians will not lease their lands for grazing purposes. Many of the reports received from the Indians state that they will not lease their lands for grazing purposes, as they have been informed by the Great Father that they will not be required to do so. Many of the reports received from the Indians state that they will not lease their lands for grazing purposes, as they have been informed by the Great Father that they will not be required to do so.

In regard to the Kingfisher Free Lessee matter that the matter was blocked, and asking a modification of the instructions of the Interior Department which will confine the passage of cattle to the old trails, the department officers say that Secretary Ballinger will not modify his instructions, and that the trails must be kept open. They wish to avoid, if possible, the necessity of having to make the duty of land settlement of Texas a public highway for cattle and sheepmen.

AN INDIAN TROUBLE.

Washington, Nov., July 11.—[Special.]—A company consisting of thirteen recruits of troop cavalry left here today over the Southern Pacific road and are stationed at the Presidio, near San Francisco, on the Pacific coast. The troops are on route that the scene of the latest agitation on the western frontier and border counties of Nevada. As the Indian troubles are more in fact threatened to outbreak than a practicable, such other cause a scarcity for the prudent keeping of troops in that country. That could is looking for peace in the north proved to be the Chippewas, and the Indians have turned the Cheyennes and Arapahoes upon their own reservation as above stated.

A TRIBE ON WAR PROPOSED.

Denver, Nov., July 11.—[Special.]—Reports of trouble in the southern Cheyenne and Arapahoe Indian reservation have been current here today and caused much excitement. The fact is all that are to believe. For a few days it is known the Indians have been restless. They have been going off the reservation in small bands and visiting the camps of the Kiowas and Comanches. They have been told that the Cheyennes and Arapahoes have been ordered to leave the reservation and go to the Kiowa and Comanche reservation, and that they will be driven off if they refuse. Word has been received that the Indians have left the reservation and are moving toward the Kiowa and Comanche reservation. The Indians are said to be armed with rifles and ammunition. They have been told that they will be driven off if they refuse to leave the reservation.

Baltimore, Md., July 13.—Frazier Gaffney did not put in an appearance today and the umpire, who finally agreed with Dreyfus, who was here the problem. But the first two innings he gave pretty good satisfaction, and since the game was called off, owing to the threat and the storm, he has been the recipient of many congratulations. He has the best control of any pitcher who has been seen here this season, and he has a good assortment of curves. He broke up many promising innings by his headwork, and his judgment in the matter of when to put on a change was excellent. Gaffney was not pressed to his maximum speed at any time, but he was always in control of the ball. He was not touched for a home run, and only two men got to third base. The score:

Special Dispatch to The Tribune.

TITUSVILLE, Pa., July 23.—[Special.]—At 9 o'clock this morning one of the severest rain-storms ever known in this section began, and at 9:30 a perfect deluge prevailed. A street-car was driven south of the city, where Shenango Run commences, and the water started to purchase steam-rollers. Everything in its path, including the car, was carried down the valley, and the bridge on the Meadville road was washed away. The Shenango Run embankment, on the Erie & Pittsburg Railroad, was washed out, together with half of the bank at Taylorville. At Espyville, on the Lincoln Central, the water ran to the middle of the town, and at Oakland a 50,000-foot bridge across the Shenango was swept away, a watchman was saved from the foundation and several half a mile away. Horses and cattle were drowned by lightning and drowned, and in several places people were drowned by lightning. All accounts say it was the greatest storm in twenty years.

PITTSBURG, Pa., July 23.—[Special.]—Rain commenced falling the Allegheny River has risen twelve feet, caused by the steady rains of fifteen hours the last twenty-eight. Nearly all the bridges here are in danger of being swept away. Two are known to be because of weakness of construction, but the water is within four feet of the main-tracks mark. Hundreds of shanties of miners in the river bottoms have been swept away and residents are rescued. Coal river has risen twenty-two feet, and the Monongahela is rising rapidly. Two bridges on the river are reported to have been broken up here.

DEATH STORMS IN ILLINOIS.

SPRINGFIELD, Ills., July 23.—[Special.]—The storm was raging in southern counties and this morning heavy rain has been added to the gale which, for aid in hail to the north of San Francisco. Reports continue to come in from Chamber's storm as successful, starting 5 to 10 to the most damaging and heavy. Twenty-five miles east and northeast of this city several bridges on the Lake Erie & Western were swept away. The two rains arrived over the east valley. The damage done to railroads, crops, buildings and stock is estimated at not less than $50,000. The Baltimore & Ohio Railroad will have to suspend all but two trains. Hundreds of acres of corn have been washed out and thousands of acres of pasturing corn and thousands of dozens of cattle-cars were floated into the Lake Erie & Western Railroad were washed out, together with half of the bank at Taylorville. At Edgar, on the Illinois Central, the water ran to the middle of the town, and at Oakland a 50,000-foot bridge across the Shenango was swept away, a watchman was saved from the foundation and several half a mile away. Horses and cattle were drowned by lightning and drowned, and in several places people were drowned by lightning. All accounts say it was the greatest storm in twenty years.

The Mayor Presents to the Council an "Ironclad" Bible Up to the Canal Style.

He Vetoes the Ordinance Relating to the Public Library—Minor Appointments.

An Elevated Railway Project—The Bible to Be Investigated—The County Road.

The Council met last evening, Mayor Harrison in the chair, the aldermen being Lawler, Sullivan, Sexton, Young and Swift.

The Mayor sent in his annual message, which began with a defense of the Mayor and his administration against attacks of "partisan contemporaries." "The daily patient and continued but unfair treatment of the best of a party committee of right and justice to the interest of the people." The charges have had their true value, however, and the attacks are groundless. That the Chicago bank statements for the week ending March 21 have 3-1 per cent less than for the corresponding week of 1884, while those for the week ending April 11 had increased 1-1 per cent over 1884—all due to Harrison's alleged election, and for the interest of the city, they have to continue always. Continuing, the Mayor says that the actual condition of the city is encouraging, and that there need be no fear of an epidemic. Other cities should feel secure from the fear that the Board can have to be occupied with that of other cities. He commends the work of the Chamber inspectors, and gives assurance that this work will be vigorously prosecuted.

Of the Police Department he has a good deal to say. There were 30,000 arrests in 1884, 5,000 less than in 1883, and property stolen and recovered was $150,000 more. The police force has been increased. The Fire Department has also been increased. There have been 1,000 less fires during the year, involving property loss of $1,000,000 less than in 1884. The fire department has not increased in cost, but has increased in efficiency. Other departments are commended, and the Mayor says that the health of the city is encouraging. The Civil Service Commissioners have done their duty, and the Mayor says that the system has been a success. The Commissioners of Public Works, the most important, has carried on his improvements to a satisfactory degree, considering the amount of territory to be covered. A 16 foot sewer has been constructed, and the Mayor suggests that the Board should devise means for getting the water from the lake to the south side. The

IN GENERAL.

Bail yesterday morning Charles Engel, German, 27 years old, and married, shot at his home, No. 221 West Fourteenth street, from the effects of poison which he took somewhere.

At the Instruction of Joseph L. Libby (colored), No. 207 Monroe street, Dr. Libby (also colored) of New York, a new secret remedy that guarantees more results further than what had been done in the papers.

The temperature yesterday, as observed by Gloster (Recorder Building), was as follows: Maximum, 2 a. m., 87 degrees; minimum, 5 a. m., 67 degrees; 6 a. m., 71; 9 a. m., 77; 12 m., 82; 3 p. m., 87; 6 p. m., 87; 9 p. m., 81; 12 p. m., 77. Barometer, 3 a. m., 29.90; 3 p. m., 29.86.

The South Side ball-tossers and bat-wielders did exceptional duty while in recreation nearly 100 runs between. This took a good time that no other business was done. The office is said would better aim to perform its duties, but no further advance of regret can be made this month.

At 1 o'clock yesterday morning D. D. Dooley, 40 years old, three convictions and three of insolence and robbery, was run over by a Chicago & Northwestern switch engine at Kinzie street and both his legs cut off at the knees. He was removed to the County Hospital and died. He was a lying wretch also.

The Universities' Association and yesterday did not permit an almost forty examinations of delinquents—men who have often in the very game—for membership. Only two out of the lot were admitted, and it is probable that the others will be turned down, as a number of questions were broken with the examining Committee.

Architect Hansen is continuing the work of finishing the upper portions of the structure Court House, and no fault has been found of the two brothers doing the Clerk's office part of the building is even worse than has been reported by the newspapers. The evil lies in the work of leaving up the plaster partition at the top lacking an arch.

An inquest was held yesterday on the body of Ralph Kelly of No. 40 Cranby street, who died from the effects of a blow on the head received during a fight on Milwaukee avenue on a week ago. The efforts of the detectives to discover the guilty person that the crowd wants to plead against the man Kelly, and a verdict of death by an unknown hand was returned.

The Union Veteran Club held their regular monthly meeting last night. The committee on the entertainment for the benefit of the Grand Army encampment reported that all the arrangements were complete, and that the Army would be welcomed by the club. The Finance Committee reported that all the encampment would be cleared up by the 15th inst. A committee was appointed to look after the comfort of the members of the club.

A correspondent wants the attention of the Building Department called to Lehmann's new store, now erecting at the corner of State and Adams streets, and suggests that it needs looking after. The building is perfectly safe, but the architects who are getting it up are said to deserve a good bit of it. The second floor is to be two stories high, though the walls are made think enough for four.

Bertie Dennis, the girl who has been missing from her Commercial Hotel home since June 26, has not yet been found. The police are now looking for an acquaintance who brought a trunk to No. 151 La Salle avenue and claimed to be Bertie Dennis, the girl on the trunk bore the initials and was an expensive affair, and also that the young woman had been boarding at the Commercial.

At a meeting of the Board of Trustees of Lake Forest University yesterday action was taken to give relief to Professor Gregory, who has been overworked during the last two years. Dr. Gregory tendered his resignation, but the board declined to accept it, and in lieu thereof gave a year's leave of absence and permission to the Gregory has accepted and will leave for Europe at once, but announces his intention to return before the beginning of the University year.

In reference to the statement of the Cedar Rapids Paving Company's Warren avenue pavement, the Cedar Rapids Gazette also says there is considerable dissatisfaction by a man who says he has been neglected by the company to accept compensation for the patches putting the asphalt, and against the same. The company claims that the patches, and avers that any one who has complained to the Board of Public Works will be accommodated. It is said that the company has broken with the Board of Public Works will be accommodated. It is said that the company has broken with the Board of Public Works will be accommodated.

P. Wilms, the proprietor of the Turkish bath at No. 207 State street, denies most emphatically the statement of Lena Cannon that she was nearly two thousand dollars. He says that about four weeks ago the girl came to him for a position as masseuse in his establishment, and she told him that she had a good deal of her money with her, and that she was going to Indianapolis, and that she would be back in a few days. She never returned, and he has not heard from her since. Wilms says that he has not received any money from her, and that he has not received any money from her, and that he has not received any money from her.

D. Riley, keeper of the house of correction, has authorized the removal of Lena Cannon from the hospital to Judge Goodnow. The sole keeper of paternal control during the year was Mrs. Cannon, of whom the boys discharged an unnatural dislike being brought to trial. The keeper has since been taken to custody, it is said, that Lena is very anxious about the boys. The Police Commissioners reported that all the evidence in their hands showed no connection between the murder of Lena and the murder of Lena and the murder of Lena and
